

## ENERGY CONSERVATION CLUB

### Report on Energy Conservation Club Inauguration

Date: 23rd September 2025

Time: 2:00 PM – 4:00 PM

Venue: College Seminar hall

The Energy Conservation Club of BYK Arts & Science College for Women, Kalpakanchery, was formally inaugurated on 23rd September 2025, Tuesday, at 2:00PM in the college Seminar hall. The program was organized by the Energy Conservation Club in association with Department of physics. The event marked the beginning of a new initiative aimed at creating awareness among students and faculty about the importance of energy conservation, sustainable practices, and environmental responsibility. The program brought together faculty, staff, and students to emphasize the role of collective responsibility in promoting energy efficiency and sustainable living.

### **Programme Details**

#### **Welcome Speech**

Ms. Mufeeda MK, Convenor of the Energy Conservation Club, extended a warm welcome to the dignitaries, staff, and students. She highlighted the vision of the club and its mission to encourage eco-friendly practices within the campus.

#### **Presidential Address**

Mr. Mohammed Rafeeqe, Vice Principal of the college, delivered the presidential address. He emphasized the need for integrating energy-saving measures into everyday life and the transformative role of education in shaping environmentally responsible citizens.

## **Inauguration**

Dr. K. P. Hussain, Principal of the college, officially inaugurated the Energy Conservation Club. In his address, he stressed the urgency of energy conservation in the current global scenario and encouraged students to actively participate in the club's initiatives.

## **Guest Talk**

Mr. Shabeer T, Sub Engineer at KSEB Electrical Section, delivered an insightful session on practical approaches to energy conservation. He discussed methods for reducing electricity consumption, the significance of renewable energy, and the role of students in spreading awareness in the community.

## **Vote of Thanks**

Ms. Murshidha Thasni, member of the Energy Conservation Club, proposed the vote of thanks, expressing gratitude to the dignitaries, faculty, and students for their support and active participation in making the event a success.

## **Attendance**

Club members and students from various departments actively participated in the program.

## **Objectives of the Program**

- To create awareness among students about the importance of energy conservation and sustainable practices.
- To motivate students to adopt energy-efficient habits in their daily lives.
- To provide a platform for students to learn about renewable energy and eco-friendly technologies.
- To encourage active participation in energy-saving initiatives both inside and outside the campus.

## **Expected Outcomes**

- Students will gain a better understanding of energy efficiency and renewable energy practices.
- Increased awareness on campus about the need for conservation of energy resources.
- Promotion of eco-friendly initiatives and student projects related to sustainability.

- Strengthening collaboration between the institution and agencies like KSEB for future energy conservation programs.

## Conclusion

The inauguration of the Energy Conservation Club concluded successfully at 4:00 PM. The program not only launched the club's activities for the academic year 2025–26 but also set the foundation for spreading awareness on energy efficiency, sustainability, and conservation practices. The event inspired students to adopt responsible energy habits and contribute to the betterment of society.
